

SUPER SILENT PRESSURE WASHER

Super Silent Pressure Washer from Morclean is a revolutionary and unique system. Featuring incredible performance and results without the loud noise of a typical pressure washer.

A standard pressure washer operated at around 106 to 110dB, where as the Super Silent Pressure Washer version operates at approximately just 73/79dB. This machine is ideal for uses in built up areas such as inner cities where noise pollution needs to be kept to a minimum.

The Super Silent Pressure Washer consists of a completely bespoke unit with a modern electric start, self-charging, diesel engine and a EU approved, galvanised highway bowser which makes this unit completely mobile.
