

MV 350 & 460 TWIN MOTOR UPRIGHT VACUUM CLEANERS

The Morclean range of MV 350 & MV 460 range of twin motor upright vacuum cleaners are built to be versatile in use, reliable in service and easy to maintain. Designed to clean efficiently almost any type of floor surface, from hard floors to carpets. This has been achieved by the use of a brush only roller driven by a dedicated motor through a non slip toothed drive belt. The lift out stretch hose, wand and cleaning tools enable these models to perform suction vacuum cleaning, a task only previously possible with canister vacuum cleaners.

FEATURES

- 800w twin fan vacuum motor with thermal switch protection against overheating
 - Red neon indicator light for blocked hose or full paper bag
 - Three stage filtration: -
 - twin layer disposable paper bag
 - motor pre filter
 - motor exhaust filter
 - 150w fan cooled motor driving roller brush through non slip toothed belt
 - Roller brush motor protected by electronic circuit board with green/red LED indicators to show correct running/belt broken/roller brush jammed conditions
 - Roller brush height adjustable to four different heights by external control knob
 - Roller strip brush easily replaceable without removing roller brush
 - Double stretch hose, 650mm wand, crevice tool and upholstery/stair nozzle supplied.
- Automatic static discharge facility.

TECHNICAL SPECIFICATIONS

Vac Motor:	800w/230v/50Hz
Brush Motor:	150w/230v/50Hz
Performance:	Max Airflow 28 Litre/Sec Max Vacuum 1500mm
Cleaning Range:	22 Metres / 72 Feet
Capacity Litres:	6L
Dimension (H x W x D) mm:	MV 350 1170 x 350 x 260 MV 460 1170 x 460 x 260
Weight (Kg):	MV 350 9 MV 460 10.5
